Objective

To obtain a challenging role in a reputable organization where I can apply my skills and contribute to innovative solutions, while pursuing continuous learning and professional growth.

Technical Skills

Programming Languages: C, Java, Python, JavaScript

Databases: MySQL, PostgreSQL

Frameworks: Bootstrap, ReactJS, Node JS

Tools and Technologies: Git, Github, Selenium, Docker, Kubernetes, Amazon Web Services, Google Cloud Platform

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating System, Computer Networks, Cloud Computing,

Skill: Full Stack Web Development, Problem Solving, Machine Learning

Education

Vignana Bharathi Institute of Technology, B.Tech in Computer Science Sept 2023 - 2027

- CGPA: 9.07

- **Coursework:** Computer Architecture, Comparison of Learning Algorithms, Computational Theory

Narayana Junior College, Senior Secondary Education Sept 2021 - May 2023

- CGPA: 9.69

- **Coursework:** M.P.C, JEE Main

Experience

Contributor, Girl Script Summer of Code 2025, August 2025 – October 2025

- Contributed on Websites.
- Made responsive Websites without disturbing the UI

Front End Developer Intern, AICTE, Edunet Foundation August 2025 – October 2025

- Designed a Task Manager Application also added local storage feature to persist the data.
- Completed a learning course provided by IBM Skills Build

Projects

Crypto Hunter github.com/repo

- Developed a full-stack web app to track real-time Cryptocurrency prices, display charts, and manage user authentication with watchlist functionality. Implemented Machine Learning Based Models for price trend prediction.
- Tools Used: Visual Studio Code, Git and Github, CoinGecko API
- Tech Stack: React Js, Firebase Authentication, Firestore, Python, Flask.

Task Management Application github.com/repo

- Developed a simple and interactive web-based Task Manager that helps users organize their daily activities efficiently.
- Tools Used: Visual Studio Code
- Tech Stack: HTML, CSS, JavaScript

Detection Window

[github.com/repo](#)

- Developed an AI Based Detection Window that uses a webcam to detect objects in real-time.
- Tools Used: Visual Studio Code
- Tech Stack: Next.js-14, Tailwind CSS, React

Virtual Medical Assistant

[github.com/repo](#)

- Developed an AI powered application that is useful for medical issues.
- Tools Used: Python.org, Gemini API
- Tech Stack: Python

My Portfolio

[github.com/repo](#)

- Designed and developed a responsive portfolio website with Dark/Light Theme feature to showcase technical skills, projects, certifications, and contact information.
- Tools Used: Visual Studio Code
- Tech Stack: ReactJs, Tailwind CSS

Certifications/Achievements

Young Turks 2025: Earned a Merit Certificate for scoring 96.98 percentile in Aptitude Test

Solved 100+ leetcode problems: Earned 50 days badge at Leetcode.

Oracle Infrastructure 2025 Certified Generative AI Professional

HackerRank 5* (Gold level) in Problem Solving

ServiceNow Certified System Administrator
